

The future of home security and home safety management is HERE!

“End to End Control and Monitoring of your Alarm System”

Offer your customers the latest and most advanced security and home safety solution on the market, giving home owners the ability to remotely manage and monitor their home or business using the GSD i70 App on their smart phone.

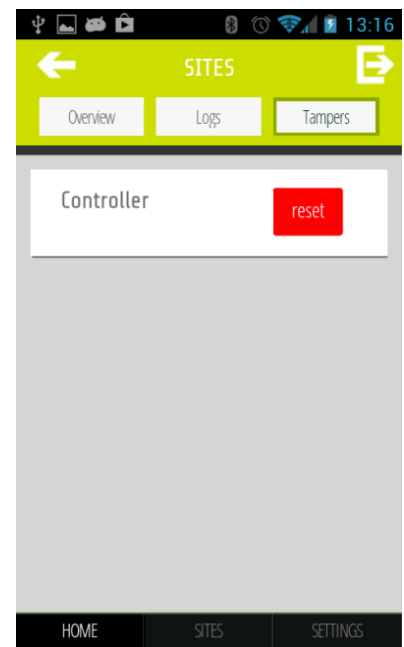

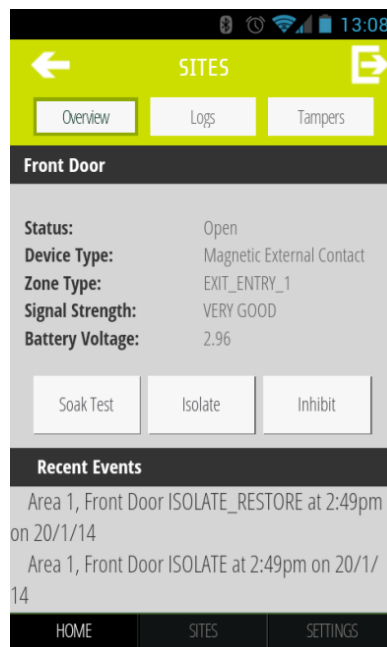

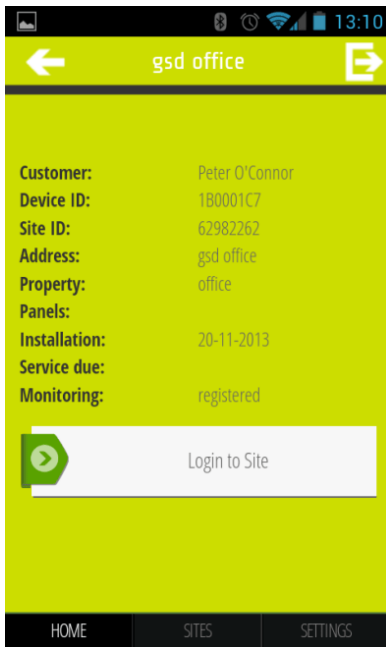

GSD are pleased to announce the general release of GSD’s Secure Cloud Server and Smart Phone Apps following successful field trials of this revolutionary solution.

Benefits for the home / business owner:

- 1 Intuitively designed mobile interfaces make it easy to interact with your security and life safety system.
- 2 Real-time push notification alerts are delivered right to your mobile device when activity takes place at your home or business.
- 3 Set or Unset your Alarm System from your phone instead of having to return home if you forget.
- 4 Peace of mind from knowing the status of your home or business security system at all times.

Benefits for the Installer:

GSD i70 Cloud Solution enables the installation company carry our remote service, pre-service audit or run remote site diagnostics on the home or business security system from their smart phone using the GSD i70 App available for Android and IOS. Download the GSD i70 App today from ITunes or Google Play!

Contact GSD today for information or to arrange training to become a GSD certified installer of the GSD i70 Solution.
