APP FUNCTIONALITY

GSD's secure Cloud Server and Smart Phone Apps give home owners the ability to remotely manage and monitor their Home or Business using the GSD i70 App on their Smart Phone.

Benefits for the Home / Business owner:

1. Intuitively designed mobile interfaces make it easy to interact with your security and life safety system.
2. Real-time push notification alerts are delivered right to your mobile device when activity takes place at your home or business.
3. Set, Unset or Part set your Alarm System from your phone instead of having to return home if you forget.
4. Peace of mind from knowing the status of your home or business security system at all times.

Coming Soon!

5. Video verification to your smart phone; giving you peace of mind that children have arrived home safe from school or care of an elderly relative.
6. Visual verification of an intruder from your smart phone, two way audio communication to politely ask them to leave your Home or Business!
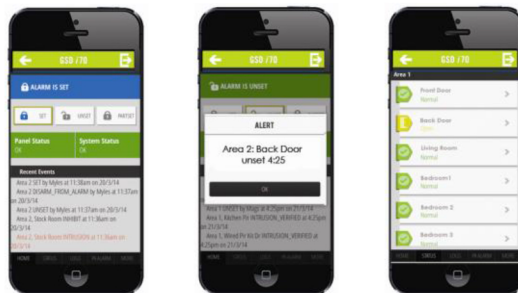

Benefits for the Installer:

GSD i70 Cloud Solution enables the installation company carry our remote service, pre-service audit or run remote site diagnostics on the home or business security system from their smart phone using the GSD i70 (with the owner's approval).

Why GSD i70?

Home and Business owners now have the added peace of mind of being able to protect what is truly important to them from any location, using their smart phone and GSD's secure cloud server. Speak to a GSD certified installer to future proof your security and life safety system today by choosing the right secure plan for you.
